

ABDELRAHMAN MOHAMED

Software Developer | Full-Stack Developer

Cairo, Egypt | +20 115 227 0980 | bodabanzen1818@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Science graduate and software developer focused on building practical, well-structured applications across mobile, web, backend, desktop, and data-driven systems. Experienced with Flutter/Firebase apps, Java desktop platforms, React/Vue interfaces, Express services, Redis-backed workflows, SQL databases, and algorithm-focused C++/C projects. Strong attention to clean structure, debugging, readable documentation, and production-ready presentation.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, Dart, Python, C++, C, C#, Rust, SQL

Frontend & Mobile: React.js, Vue, Next.js, Flutter, HTML5, CSS3, Tailwind CSS, Responsive UI

Backend & Data: Node.js, Express.js, Firebase, Firestore, Realtime Database, Redis, SQLite, MySQL

Tools & Concepts: Git, GitHub, Docker, Android Studio, VS Code, Linux, VMware, OOP, Data Structures, Algorithms, Concurrency

SELECTED PROJECTS

- Restaurant Canteen App - Built a Flutter/Firebase ordering app with authentication, cart management, location-aware checkout, order tracking, and customer/manager workflows.
- Medical Records Access Platform - Developed a Vue and Express access-control platform using Redis-backed permission mapping for secure medical record authorization workflows.
- Enterprise Payroll System - Created a Java Swing payroll platform with employee records, salary calculations, role-based access, SQLite storage, deductions, payments, and PDF reporting.
- Global University Ranking Engine - Implemented a C++ ranking analytics engine with searching, sorting, file handling, saved favourites, feedback workflows, and performance benchmarking.
- Car Rental Fleet Tracking System - Built a Java desktop fleet system for car registration, customer records, rental availability, returns, due dates, and fine tracking.
- Procedural 2D Console Physics Engine - Created a C-based console physics project with configurable gameplay, score tracking, ASCII rendering, and procedural motion behavior.

PROFESSIONAL EXPERIENCE

Customer Service Representative, Concentrix | Mar 2026 - May 2026

- Handled customer inquiries in a fast-paced support environment while maintaining clear communication, accurate case notes, and calm issue ownership.
- Strengthened problem solving, active listening, documentation, and stakeholder communication skills that transfer well into software support, QA, and product teams.

Web Developer Intern, Morshedy Group | Sep 2023 - Dec 2023

- Developed and optimized web application features using C# and MySQL, improving backend efficiency and user experience.
- Refactored application logic and contributed to a reported 20% reduction in load time through cleaner implementation, debugging, and database-aware improvements.

System Administrator Intern, Orange Egypt | Aug 2023 - Sep 2023

- Supported VMware environments and Red Hat Linux servers to help maintain stable internal systems and reduce downtime.
- Assisted with technical support, resource monitoring, and troubleshooting across virtualized infrastructure.

DEVELOPMENT PRACTICE

- Prepare portfolio-ready repositories with clear READMEs, setup instructions, screenshots, environment notes, and clean project structure.
- Debug build/runtime issues across Flutter, Java, Node/Vue, Docker, Firebase, Redis, and desktop application workflows.
- Comfortable learning new stacks quickly, translating requirements into usable features, and communicating technical work clearly.

EDUCATION

- B.Sc. (Hons) in Computer Science - Asia Pacific University, Malaysia & De Montfort University, UK | Graduated Dec 2024
- Dual Degree Program | Relevant focus: software development, databases, networking, data structures, algorithms, and systems fundamentals.

CERTIFICATIONS & ADDITIONAL STRENGTHS

- Meta Front-End Developer Professional Certificate | Dec 2025
- CCNA: Introduction to Networks | Cisco Networking Academy | Feb 2022
- Volunteer, Arab Red Crescent and Red Cross | Mar 2025 - Present
- Strengths: clear communication, documentation, debugging, self-directed learning, remote collaboration, and portfolio-ready project delivery.
